

Camp New Hope

.... on the banks of the New River

<http://campnewhopenc.com/>

Our Camp

Located in the beautiful mountains of Ashe County near Boone, North Carolina, Camp New Hope is a privately owned, nonprofit, no-charge facility for families who have children with life-threatening medical conditions. This unique and rustic five-bedroom lodge will provide you and your family with all the comforts of home, and more.

The Amazing Outdoors

Located on the New River, overlooking 160 acres of wooded mountains and grassy flatlands, you and your family are sure to enjoy spectacular views, either from a comfortable rocking chair on the front porch or just taking a casual stroll along the shores of the beautiful river.

For daytime enjoyment, you may choose from a variety of sports equipment including:

- canoes
- kayaks
- tubes
- volleyball
- baseball
- soccer
- fishing
- or you may want to take a cool dip in the “swimming hole.”

We even have a play set out back for the smaller children. The choice is yours. Remember, you have the entire camp to yourselves to enjoy at your leisure. At night, when the stars are out, how about a cozy campfire by the river's edge roasting marshmallows or telling funny stories as you sit in your favorite Adirondack Chair.

The Lodge

Your kitchen will be stocked with your favorite foods. Sit and relax with your family by the huge stone fireplace watching your favorite TV program, DVD or movie. Play an exciting Nintendo Game with the kids, work a puzzle, play a family board game, or if you're so inclined, curl up on the huge L-shaped sofa with your favorite book 'till time to turn in. In the morning, when you wake from a good night's sleep, take a look from the porch to see deer, wild turkey, or a flock of geese down beside the river. The view is peaceful, yet breathtaking!

Only Requirements

- 1) clothes
- 2) toothbrush

We provide the rest. Our goal is to provide your family with a week of fun and relaxation while providing priceless memories for the future. With so many exciting options, you don't have to leave the camp all week. It's only a short "hike" from Glendale Springs and West Jefferson, home of The Churches of the Frescoes (created by artist Ben Long) and the Ashe County Cheese factory. There you will be met by friendly smiles from the local merchants.
